

Thank you for your interest in designing a custom telecom enclosure. To ensure we create the perfect solution for your needs, please complete the following form.

Project Information

Project Name:

Description:

Type of Deployment (Broadband, Cellular IoT, DAS, etc.):

Customer Information

Company:

Name:

Address:

Phone Number:

Email:

Enclosure Specifications

Intended Use (e.g. ac or dc Power, Battery Backup, Telecom Equipment):

Preferred Dimensions (Height x Width x Depth):

Any Design Limitations (e.g. Height Max, Fine Dust Environment, etc.):

Required Mounting Type: Pole-mounted Wall-mounted Pad-mounted
 Other (Please Specify):

Weight/Load Capacity (If Known): IP Rating or NEMA Rating Required:

Material Preference: Aluminum Steel Other (Please Specify):

Thermal Management: Passive Ventilation Active Cooling (e.g. Fans, Air Conditioning):
 Heating (e.g. Heater, Battery Heater Mat, etc.):

Insulation Required: Yes No More Info:

Equipment and Components

Internal Equipment Details:

Number of Battery Strings:

Rectifiers: Yes No More Details:

Other Equipment to Be Housed (Include Dimensions & Weight if Available):

Equipment Access Requirements: Front Access Rear Access Both

Cable Access: Top Bottom More Details:

Power Requirements

AC or DC Power Requirements (Please indicate all equipment voltage, power, and quantities):
Refer to the Power Opportunity Checklist for a more detailed breakout.

Initial Power Draw (in Amps or Watts):

Backup Power (e.g. Batteries, Fuel Cells, Supercapacitors, etc.):

Grounding Requirements:

Environmental Considerations

Installation Location (e.g. City, Rural, Roadside, Mining, Agricultural, etc.):
